Single Enlargements

All of our printed images are extensively adjusted for best printing, including:

- Cropping (zooming) of the image to best highlight the action.
- Color adjustment/correction.
- Noise/Grain reduction/removal.
- Local tonal adjustments (such as darkening a background to make the athlete stand out.).
- General blemish retouching.

All of this work results in a great looking action portrait that can be hung on your wall for years to come.

A Note on Lamination

All of our sample prints are laminated, however the final prints that we deliver are not. While we like the look of the laminated prints, we have had them laminated only to protect them from daily wear and tear as a booth sample.

Lamination is a potentially destructive process and not one we normally recommend, nor provide.

Action CDs

We are often asked if we sell the high resolution images that we take.

We do.

These files are the unadjusted, full resolution out of camera files, not the final, retouched files that we would use for printing.

We offer several CD options.

Individual Action CD

This CD is a collection of all images of your athlete from a particular tournament.

Hitting, digging, cheering, laughing, serving, in the huddle, talking to the coach, etc. ...

If the image is of your athlete, you can include on your CD.

These images are full, printable resolution.

CD + 5x7	\$100
CD + 8x10	\$110
CD + 4x6 Proof of each image	\$175

Team Action CD

The same full resolution images as the Individual Action CD, but not just of any one athlete - of the entire team!

This purchase includes a disk burned for each team member and is one of our most economical product offerings. **\$450**

Prices do not include tax or shipping.

Collages

We are best known for our collages. Just as with our Single Enlargements, every image in each collage is extensively adjusted before printing to achieve the best quality possible.

We truly want these to be cherished for a lifetime and proudly hung on your wall.

We offer a number of different collage designs, from 4 through 10 image.

We also offer a number of collage specials, designed to get you the most product for your money, so be sure to ask about them!

We Recommend ...

When designing a collage, we recommend selecting images that represent the different aspects of the sport. Not solely peak action, but action, cheers, huddles, on court portraits, etc. to really get a representation of the sport and experience.

If you select a peak action moment as the main image in your collage, we recommend a portrait as a great counterpoint and vice versa.

If you have any questions about designing a collage, ask us —afterall, we do this for a living!
